- I. **PURPOSE:** The City of Charlottesville is soliciting sealed proposals from qualified firms to develop a Tree Management Plan (“Plan”) for the City of Charlottesville’s historic downtown pedestrian mall. The City seeks services in the areas of arboriculture, landscape architecture, urban design, and community process facilitation, as well as in other areas of expertise outlined in this RFP.
- II. **MINORITY BUSINESS PROGRAM:** As part of the City of Charlottesville’s Minority Business Program, the City of Charlottesville encourages the participation of small, women, minority, veteran and micro-owned businesses (SWaM-O) in the City’s procurement transactions. In order to support and build up the capacity of SWaM-O businesses, City Council and staff have taken steps to push forward policy changes and initiatives to help reduce barriers to doing business with the City. To find out more about the current City of Charlottesville initiatives and programs please visit the Minority Business Program website at <https://www.charlottesville.gov/718/Minority-Business-Program>.
- III. **BACKGROUND:** Halprin’s Plan was designed by Lawrence Halprin & Associates in the mid 1970s to revitalize the downtown community, the Charlottesville Mall is significant not only for its subtle and innovative design solutions, but also for incorporating community workshops into the design process itself. Opening in 1976, the project is located along the City’s historic Main Street and just two blocks from its 1780s Courthouse Square. This eight-block-long by 60-foot-wide street has become Charlottesville’s public living room. Theaters, restaurants, shops, and apartments line a lively space characterized by willow oak bosques, a brick floor, and significant outdoor seating with moveable chairs and tables. Several small-scale fountains also punctuate the sequence.

Lawrence Halprin’s intention with the Charlottesville’s Downtown Mall was to provide pedestrians with an urban experience. The specific placement of trees, fountains, and seating is designed to allow pedestrians to meander through the corridors, maximizing store front observation, and allowing space for community engagement. The University of Virginia School of Architecture has copious information on Halprin’s approach, and the Cultural Landscape Foundation also has archival information regarding the history of the Mall.

- IV. **STATEMENT OF NEEDS:** The contractor shall comply with all applicable federal, state and local laws, rules and regulations applicable to the provision and performance by the contractor of the work and services that are the subject of the contract. Significant community engagement with local stakeholders will be required of the successful offeror.

The Tree Management Plan shall provide guidelines for the short and long-term management of the Mall trees as part of a constructed and planted landscape of historical and cultural significance. Research, documentation, and analysis undertaken according to national standards for preservation of historical sites and trees—accompanied by coordinated input from local entities and stakeholders—will provide a foundation for the long-term management and protection of the trees and related constructed elements of the Mall’s infrastructure. The guidelines provided in the plan will help the City undertake careful tree preservation and replacement and sensitively-designed repairs and modifications that support the Mall’s current use and protect its distinctive historic character and features.

The Plan must account for the preservation of the Mall’s historic elements and for its long-term structural viability and maintenance. It should respect the design goals established by Halprin’s plan, allow for the use of present and future technology (i.e., soil vaults, tree grates), and adjust to evolving community expectations.

Although the Plan will not address privately owned land or buildings in the Mall area, it must evaluate certain situations as they relate to the public domain, including ADA accessibility, among others. In addition, the Plan must account for its impact on City departments and governing bodies, other local agencies, and private utilities and should offer recommendations for coordination, cooperative planning, and efficient decision-making. The goal is a cohesive and coherent plan for proper stewardship of these trees as significant community assets.

There are a range of elements that will allow the City to pursue a structured and sustainable plan to ensure the survivability, long-term health of the groves of trees on the Mall and sensible replacement strategy. The following are considered essential:

Elements of a Tree and Infrastructure Management Plan

- Consolidate and reference past studies and recommendations.

- Report on inventory and condition of trees, including their relationship to constructed elements (e.g., grates, bricks, lighting, outdoor dining).
- Develop a lifecycle and maintenance plan for the Mall's trees.
- Summarize responsibilities by City departments and other local agencies, with recommendations on improvements.
- Summarize decision-making processes and entities involved, with recommendations on improvements. (e.g., Board of Architectural Review, Tree Commission, Downtown Business Association, City Council, etc.).
- Recommend how to anticipate, adapt to, and accommodate changes in technology.
- Recommend prioritization of maintenance and improvements; programming and budget estimates: (i.e., immediate remediation; as needed; ongoing maintenance; short-, mid- and long-term planning; etc.).
- Recommend a dedicated funding stream, with primary emphasis on an approach for securing Capital Improvement Program (CIP) allocations.
- Establish a steering committee consisting of City departments (Parks and Recreation, Neighborhood Development Services (NDS), Public Works, Board of Architectural Review and Tree Commission, and central stakeholders, including the Downtown Business Association.

Elements and Components to be Evaluated and Addressed

- Map, inventory and examine existing conditions, including a level three arborist assessment of individual trees and assignment of health grade.
- Identify strengths and weaknesses of current design as function of tree health and Mall utilization.
- Evaluate/calculate the ecological impacts/benefits of Mall trees. Quantify what storm water reduction, air quality and energy conservation benefits.
- Evaluate/calculate economic impacts, benefits, and contributions of the trees.
- Propose short- and mid-term solutions: Tree preservation plans to extend tree life. Plans to be implemented immediately and as outlined in a ten (10) year program. Include outline costs estimates, anticipated effectiveness, and implementation sequencing and timing.
- Long-term solutions: Provide minimum of two prescriptive, viable and practical tree replacement strategies.
- Design replacement strategies of trees relative to economic impact, aesthetics and overall survivability. Options should include when and where trees or groups of trees to be removed and replaced. An analysis of removing hazard trees as they decline and replacing them versus removing entire islands of trees at a time and replacing with new plantings.
- Strategies should include cost estimates, anticipated effectiveness, and implementation sequencing and timing. Include impacts to corridor from tree work (damage to bricks). Also include suggestions and costs for soil amendments for new plantings as well as species recommendations
- Provide recommendations on tree grating (or sidewalk/tree interface alternative), including Halprin design and current applications. Include pros and cons of new tree preservation technology, ex. permeable pavement, grates – explanation for how preservation additives will deal with heavy load bearing vehicles, ADA, maintenance, etc.
- Evaluate use of seasonal outdoor heaters relative to trees.

Halprin Design

- Identify/preserve critical elements of Halprin's design and design intent.
- Recommend elements that must be preserved; incorporated into Mall extension(s).
- Establish a design ethos that respects Halprin's plan while accommodating change.

Evaluate Paving/Surface Material Adjacent to Trees

- Address trip hazards for pedestrians as pavement/grating may cause elevation changes in walkway.

Adjacency of Other Physical Elements

- Planters
- Lighting

Review How the City Makes Decisions About the Trees

- Current practices, provide recommendations
- Decision matrix to distinguish between and provide guidance on:
 - Routine maintenance
 - Emergency repairs
 - Spot improvements

- Planned modifications/replacements
- Capital projects
- Mall extensions

Miscellaneous

- Suggest requirements for tree protection during construction work [public and private] that require Mall access or disruption: proscribed work times, construction fencing, sidewalk safety, etc.
- Assess non-City utility issues (power; communications; underground work; rights of way conflicts; etc.).
- Review solutions developed by other cities undergoing urban tree replacement.

V. PROPOSAL PREPARATION AND SUBMISSION INSTRUCTIONS:

A. GENERAL INSTRUCTIONS:

1. **RFP Response:** In order to be considered for selection, Offerors must submit a complete response to this RFP (“Proposal”).
 - a. One (1) printed version original marked “*Original*” and five (5) copies of each Proposal shall be transmitted to the City, along with an electronic copy of the proposal on CD. **The City will accept flash drives or USB sticks.** The proposal should be formatted either in Microsoft Word or PDF.
 - b. In addition, should the proposal contain proprietary information, submit one (1) redacted printed version with proprietary portions removed or blacked out marked “*Redacted Copy*” along with an electronic copy on CD either in Microsoft Word or PDF format of same. **The City will accept flash drives or USB sticks.**

These items must be submitted to the City as a complete sealed proposal. No other distribution of the proposal shall be made by the Offeror.

Proposals must be submitted by the date and time stated in the solicitation. Proposals will be date and time stamped upon receipt and retained unopened in a secure location until proposal opening. No consideration will be given to date of postmark or error in delivery to incorrect address. It is the responsibility of the Offeror to ensure timely and correct delivery of proposal.

2. Proposal Preparation:

- a. Proposals shall be signed by an authorized representative of the offeror.
- b. Each Proposal must be and remain valid for a period of at least sixty (60) days from the date set by this RFP for receipt of proposals.
- c. All information requested or required by this RFP must be submitted. Failure to submit all information requested may affect the overall rating of the Offeror’s proposal
- d. Proposals should be prepared simply, providing a clear, straightforward, concise description of the Offeror’s qualifications and suitability to provide the required services, and of the Offeror’s capabilities, in all respects, to perform fully the requirements of this RFP, and the Offeror’s integrity and reliability that will assure good faith performance of the Project requirements.
- e. Proposals should be organized in the order in which the requirements are presented in the RFP. All pages of the proposal should be numbered. Each paragraph in the proposal should reference the paragraph number of the corresponding section of the RFP. It is also helpful to cite the paragraph number, sub-paragraph, and repeat the text of the requirement as it appears in the RFP. If a response covers more than one page, the paragraph number and sub-paragraph number should be repeated at the top of the next page. The proposal should contain a table of contents which cross-references the RFP requirements. Information which the Offeror desires to present that does not fall within any of the requirements of the RFP should be inserted at an appropriate place or be attached at the end of the proposal and designated as additional material. Proposals not organized in this manner may receive a lower score if evaluators are unable to find where the proposal specifically addresses the RFP requirements.

- f. As used in this RFP, the terms "must", "will" and "shall" identify mandatory requirements. Items labeled as "should" or "may" are highly desirable, and are preferred. Depending on the overall quality and completeness of a Proposal, inability of an Offeror to satisfy a "must", "will" or "shall" requirement may not automatically remove that Offeror from consideration; however, it may affect the overall rating of the Offerors' proposal.
 - g. Each copy of the Proposal should be bound or contained in a single volume where practical. All documentation submitted with the proposal should be contained in that single volume.
 - h. All proceedings, records, contracts and other records relating to this procurement transaction shall be open to public inspection in accordance with the *Virginia Freedom of Information Act*. Trade secrets or proprietary information submitted by an offeror shall not be subject to public disclosure under the *Virginia Freedom of Information Act*; however, the offeror must invoke the protections of § 2.2-4342F of the Code of Virginia, in writing, either before or at the time the data or other material is submitted. The written notice must specifically identify the data or materials to be protected and state the reasons why protection is necessary. The proprietary or trade secret material submitted must be identified by some distinct method such as highlighting or underlining and must indicate only the specific words, figures, or paragraphs that constitute trade secret or proprietary information. The classification of an entire proposal document, line item prices, and/or total proposal prices as proprietary or trade secrets is not acceptable. Offerors, upon request, shall be afforded the opportunity to inspect proposal records within a reasonable time after the evaluation and negotiations of proposals are completed, but prior to award, except in the event that the City decides not to accept any of the proposals and to reopen the contract. Otherwise, proposal records shall be open to public inspection only after award of a contract by the City.
 - i. All costs of proposal preparation and presentation shall be borne by each offeror. The City is not liable for any cost incurred by the offeror prior to issuance of a contract.
3. Oral Presentation: Offerors who submit a proposal in response to this RFP may be required to give an oral presentation of their proposal to the City. This provides an opportunity for the offeror to clarify or elaborate on the proposal. This is a fact finding and explanation session only and does not include negotiation. The City will schedule the time and location of these presentations. Oral presentations are an option of the City and may or may not be conducted.

Contractor may not substitute other staff or individual(s) without the prior, express written consent of the City. Upon determining that invoiced charges are not reasonable, the City shall promptly notify the contractor, in writing, as to those charges which it considers unreasonable and the basis for the determination. A contractor may not institute legal action unless a settlement cannot be reached within thirty (30) days of notification. The date of mailing of any payment by U. S. Mail is deemed to be payment to the addressee. These provisions apply to each sub-tier contractor performing under the primary contract.
